DIRECTIVE TO TAKE CORRECTIVE ACTION IN RESPONSE TO UNAUTHORIZED UNDERGROUND STORAGE TANK RELEASE – HEALTH AND SAFETY CODE SECTION 25296.10 AND TITLE 23, CHAPTER 16, CALIFORNIA CODE OF REGULATIONS, SECTIONS 2720-2727

ARCO #1289

4861 EAST FIRESTONE BOULEVARD, SOUTH GATE (CASE NO. I-12054) (Priority A1)

Dear Ms. Wager:

Pursuant to Health and Safety Code section 25296.10, you are required to take corrective action (i.e. Preliminary Site Assessment, Soil and Groundwater Investigation, Corrective Action Plan Implementation, and Verification Monitoring) to ensure protection of human health, safety and the environment. Corrective action requirements are set forth in California Code of Regulations (CCR), title 23, section 2720 through 2727.

We have received your "Request for Low-Threat Closure" dated May 24, 2013, and "Notification of Discovery of Non-Permitted Underground Storage Tank" dated August 6, 2013, prepared by your consultant ARCADIS. Based on the submitted information, a 500-gallon underground storage tank half full with liquid was discovered beneath the site. The location, its content, the tank integrity and additional subsurface investigation to determine whether a release has occurred were not provided. You are required to submit the tank removal report along with a site assessment report to determine whether a new leak has occurred and the extent of the contamination. You are required to submit the requested information to our office by **April 15, 2014**, so we can complete our review of your case.

If you have any questions, please contact Mr. Nhan Bao at (213) 576-6703 or nbao@waterboards.ca.gov.

Sincerely,

Gregg Kwey, P.E.
Senior Water Resource Control Engineer
